SITUATION

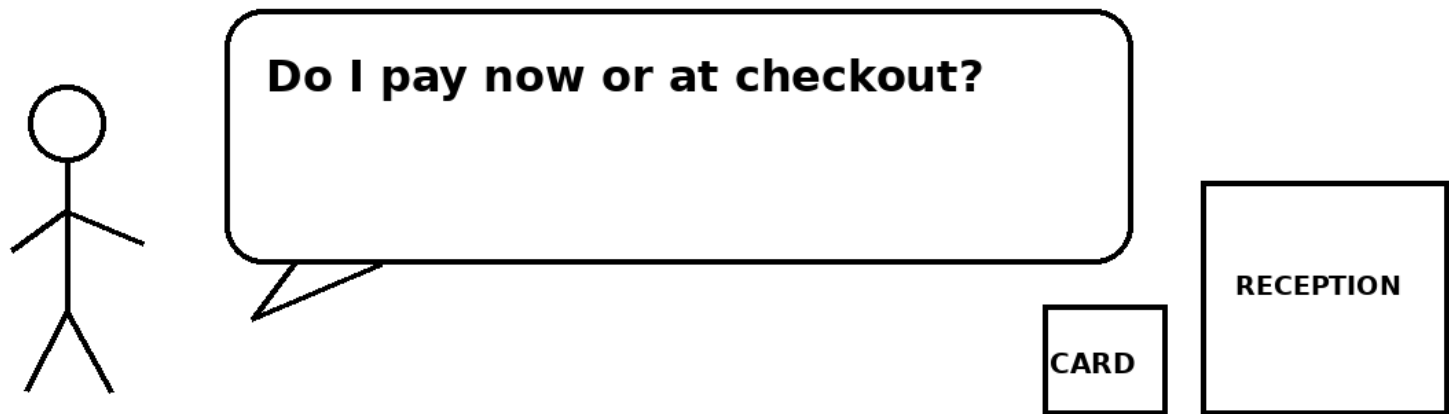

Two payment moments seem possible: arrival or checkout.

Your room is booked. Reception has not said when payment happens.

QUESTION

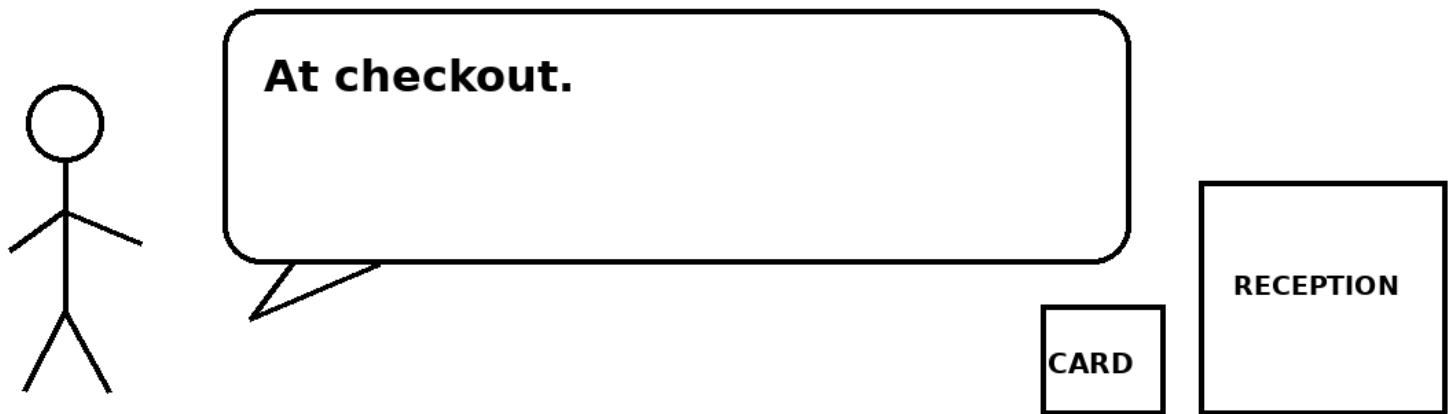

A two-option question checks which payment procedure applies.

Do I pay now or at checkout?

03 / ANSWER + CONFIRM

The answer

MEANING

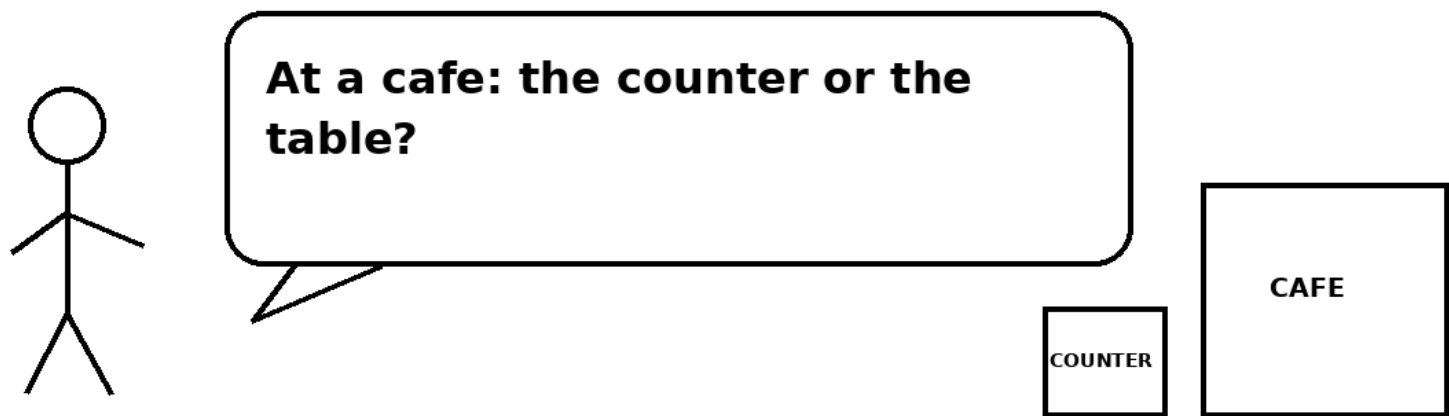

Payment happens during the hotel leaving-and-billing stage.

At checkout means during the hotel leaving-and-billing stage. Here, now means before the stay begins. Thanks. I will pay when I check out.

TRANSFER

Ask with two options. Then confirm the counter answer.

At a cafe, you do not know whether to pay at the counter or at your table.

Write one two-option question. Then add one short confirmation for the answer: 'At the counter.'
